

Secret 1

The 10 Secrets

of great families

So kids, let's get started with the first secret.

Can you guess what is the first secret
for building a great family?

The first secret to building a great family
is to have FUN together.

Great families laugh and joke with each other,
they play together and they plan exciting things
to do that everyone in the family will enjoy.

Does that sound like fun to you?

Because your family is going to need
your help in having fun together.

Let's begin with the first poster
that you can hang up somewhere in your room
or around the house for everyone to see.
You'll see a picture of it on the next page.

Family Fun

This is one of the first secrets of great families -
they have fun together!

1. Why do you think that having fun is so important in great families?
2. What fun things do you already do as a family?
3. What other fun things could you do?

Remember to think of some everyday fun things to do
as well as some extra special things.

Family Activity

This week your family is going to be thinking about some 'fun' things you can plan to do and then make this happen.

This is not always easy because sometimes different people like to do different things ... and sometimes this causes fights, which is no fun at all!

Also remember to think of some *everyday* fun things to do as well as some *special* things. If you can't do them all this week, then at least you have plenty of ideas for the weeks ahead or future holidays.

Your Family Activity page is where you can write down all your great ideas.

At the end of the week don't forget to draw a picture or take a photo of what you did as a family so this can be included into your Family Scrapbook.
